

## NCPF Annuals Competition 2022 Results

We are pleased to announce that the results of the 2022 NCPF Annuals Competition are now available for publication.

### General

Thankfully the competition returned to normal this year with the return of both mono & colour print sections. Many thanks for the co-operation of all the judges / selectors involved, and of course the many other people who helped out with the running of the competition.

Members from 24 NCPF clubs entered work into this year's Corder Mono Print competition, there were a total of 340 images submitted into the open section. 22 clubs competed for the Corder Trophy.

Members from 24 NCPF clubs also entered work into this year's Bewick Colour Print competition, there were a total of 391 images submitted into the open section. 22 clubs competed for the Bewick Trophy.

There were a total of 21 prints submitted into the Robert Chalmers beginners print competition.

Members from 31 NCPF clubs entered work into this year's Myles Audas PDI competition, there were a total of 670 images submitted into the open section. 29 clubs competed for the Myles Audas Memorial Trophy. Entry's being lower this year following a return to a max of 3 entry's per entrant.

There were a total of 83 images entered into the Jane Black DPI Trophy for beginners.

### Awards & Alliance / Portfolio Presentations

Due to the return of our print competitions the Awards & Alliance / Portfolio Presentations will return to their normal format this year.

As last year it was again decided that the presentation should again be offered as a **free We- Transfer download** to all NCPF Clubs. The presentation will still be available for posting in a CD or memory card format but this will incur costs. Further details re distribution will be made available in due course.

### In Conclusion

It was fantastic to see a return to normality with the return to Clara Vale and judging etc once again being carried out live and in person, this together with the welcome return of the print sections. Print sections entries however were lower than those seen in previous years, especially in the beginners section, which perhaps was entirely predictable / expected given that some clubs have not yet returned to holding print competitions.

Gerry Adcock ARPS

(Competitions Officer NCPF)
